### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert A. Skrivanek on April 21, 2006.

2. The application has been amended as follows:

- *In line 1 of claim 19, please delete the phrase "claim 11" and replace it with the phrase – claim 18 –.*

### EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance:

Regarding *claim 1*, the primary reason for allowance is that the prior art fails to teach or reasonably suggest a camera subassembly formed so as to be substantially sealed against the ingress of contaminants which includes a first elongated member coupled to the housing and to the first lens such that the first lens is moveable in a backward and forward direction in a direction of the optical axis and an electrically controlled movement imparting apparatus for moving the lens within the camera subassembly.

Art Unit: 2622

Regarding *claim 29*, the primary reason for allowance is that the prior art fails to teach or reasonably suggest that the first elongate member has a width that is more than the thickness.

With regard to *claim 35*, the primary reason for allowance is that the prior art fails to teach or reasonably suggest mounting a first lens within an enclosure using a flexible member which allows for forward and backward movement and a second lens fixed to the housing, wherein enclosure is substantially sealed against ingress of contamination, and wherein movement of the first lens relative to the second lens is controlled via an externally applied electric signal.

As for *claim 36*, the primary reason for allowance is that the prior art fails to teach or reasonably suggest that the elongate member coils around an axis through which light passes through the housing.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John M. Villecco whose telephone number is (571) 272-7319. The examiner can normally be reached on Monday-Friday.
